André Cepeda + Eduardo Matos

Lamp`s explanation

OPENING SATURDAY 21.09.2013 4.00pm

24 .09 > 02.11.2013
Tuesday - Saturday 3-8pm

The work of André Cepeda and Eduardo Matos shows us different options, developed by each of them over more than a decade. André Cepeda more focused and loyal to the photographic work, and Eduardo Matos with a research that brings into dialogue different media in a same space of sensible experience. Although at first glance the work of both, that is, the language, the themes and, somehow, the space of affirmation of their works, tells us that we are facing two distinct authors, Cepeda and Matos have shared experiences and developed common work, such as the artistic residency in 2010, in Brussels, which resulted in the project "Kanal".

In "Lamp's Explanation", exhibition which now opens at Galeria Pedro Oliveira, the authors resume a dialogue that has accompanied them. This time the gallery's space is the common place where Cepeda's pictures and Matos' drawings and video inhabit the space in a possible dialogue. Added to this, parallel to the exhibition, Cepeda and Matos curate a program of performance and sound: António Olaio, Gustavo Sumpta, Luís Lopes and Vera Mota join the "Lamp's Explanation" with their sounds, gestures and movements.
